SUMMARY

Motivated MERN Stack Developer with expertise in MongoDB, Express.js, React, and Node.js. Skilled in developing responsive web applications, RESTful APIs, and user-friendly interfaces. Eager to contribute to team success by leveraging strong technical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: Javascript (es6), C, C++.

Frontend Technologies: React.js, Redux, Context API, Tailwind CSS, Bootstrap, HTML 5, CSS 3.

Backend Technologies: Node.js, Express.js, JWT. Databases: SQL, My SQL, MongoDB, Mongoose.

Tools: Git, Github, Postman, Canva, Figma, AWS, Docker.

PROJECTS

E-Commerce Website Dec 2025 - Present

Currently developing a responsive and dynamic e-commerce website using the MERN stack (MongoDB, Express.js, React, Node.js) as part of a hands-on project at DUCAT Institute.

- Key Features: User authentication, product search and filtering, shopping cart functionality, and secure payment gateway integration.
- Responsibilities: Implemented RESTful APIs, designed front-end components with React, managed state using Redux, and ensured database operations with MongoDB.
- Outcome: Enhanced understanding of full-stack development, improving coding efficiency and teamwork skills.
- Technologies: React.js, Node.js, Express.js, MongoDB.

Weather App Oct 2024 - Nov 2024

Designed and developed a weather app leveraging the OpenWeatherMap API to provide real-time weather data for various locations. • Key Features: Displays current temperature, weather conditions, and a 7-day forecast with responsive design for seamless use

- across devices. Outcome: Strengthened API integration skills and enhanced proficiency in React for building dynamic, user-centric applications.
- Technologies Used: React, JavaScript, HTML, CSS, and OpenWeatherMap API.

Portfolio Website Feb 2024 - March 2024

Designed and developed a responsive portfolio website to showcase personal projects, skills, and achievements, with a focus on clean design and user experience.

- Key Features: Interactive project previews, smooth navigation, and responsive layout for seamless use across devices.
- Outcome: Improved front-end development skills and gained experience in creating professional, self-branded web solutions.
- Technologies Used: JavaScript, HTML, CSS.

EDUCATION

HRIT, Ghaziabad Oct 2021 - Nov 2024

Bachelor's of Computer Application (BCA)

60%

Core Courses: Software Engineering, Data Structures, Algorithms, Database Management.

I.P. Convent School, Delhi

2020 - 2021

62%.

In college

CERTIFICATIONS

Training on Web Development

Softpro India

Higher Secondary Education (12th)

Pitampura / Delhi Ducat **MERN Stack** May 2024 - Present

- Gaining hands-on experience in building full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Developing expertise in RESTful APIs, state management, and database integration.

Oct 2023 - Nov 2023

Gaining hands-on experience in building frontend web applications using HTML 5, CSS 3, Bootstrap.

Developed expertise in Clone web pages and frontend development.
